

Are you ready for **SB 1383**?

California's New Waste Reduction & Food Recovery Strategy

RECOVER

Starting January 1, 2022, certain food businesses will be required to save the surplus edible food which they would typically discard and to redistribute it to hungry people instead.

PARTNER

Establish partnerships with local food rescue organizations via written contracts in order to begin recovering the maximum amount of your business's surplus edible food.

RECORD

Keep a careful log of all your food recovery activities. City officials will request to see your records during routine facility inspections.
